

maceflor[®] 
PRODUCCIÓN

MEET US

Maceflor started its activities in the plastic sector, in particular the injection moulded plastic, in the seventies by Mr. Juan José Avallone. Driven by his business spirit, he was the first manufacturer of plastic pots for the ornamental sector in the Levante region and rapidly expanded to the whole country.

Nowadays, the management of the company is run by the next generation and we would like to say that it is one of the leading supplying companies in pots, containers, tubs, bamboo and other indispensable products for the cultivation of ornamental plants.

Maceflor counts with a warehouse of more than 10.000 m² which enables us to be prepared to provide and satisfy the needs of our customers.

We dispose of two lorries wherewith we offer the delivery in the Levante region. At national level we work with the main transport agencies from courier services to full loads. We are located in a strategic area with good connections to the main motorways and the port of Valencia.

In 1985 Maceflor obtained, with a lot of effort, its first international customer and from then on we managed to be present in the five continents.

Our persistence and determination in this project made us stronger and demanding in our daily work.

Our production is subject to strict quality in the whole process: from raw material to machinery and up to packaging. Our commitment to the environment is translated in the responsible use of recycled and recyclable raw material.

COMMITTED TO THE ENVIRONMENT

Maceflor, has always been committed to the environment by working with recycled and recyclable raw materials.

Currently all our pots and accessories are made from 100% recycled polypropylene and polyethylene of post-industrial and/or post-consumer origin. The virgin raw materials and dyes used, also meet all recyclability requirements.

In collaboration with a technology company, we have the accreditation that our products meet the necessary requirements to satisfy the demands of our customers, as well as to fulfil our commitment to sustainability.

Our I+D department develops new products, optimising the storage and transport space in mind, thereby reducing the impact of our carbon footprint.

2 in 1 grid support that allows, thanks to its double grip, to use the same support for 14 and 15 cm pots in diameter.

Quick installation and a perfect grip which prevents it from slipping out of its anchorage to the pot.

GENERAL CONDITIONS

1. Prices apply from the moment the order is made. Maceflor reserves the right to change prices without previous notice. However, Maceflor maintains prices of orders previously confirmed.
2. Prices are net prices to which current VAT percentages will be applied.
3. Interest rates and bank charges generated by postponed or delayed payments will be charged to the customer (Law 3/2004 of 29 December combating late payment of commercial transactions).
4. Goods remain property of Maceflor until full payment of the invoice has been received.
5. Orders need to be confirmed in writing, by fax or e-mail.
6. Customers ordering for the first time have to pay in advance.
7. Regarding to orders with special conditions (custom made products, personalised products or any product which is not a standard product and made only on request), the customer will be asked to pay 50% of the total order value in advance. For subsequent orders, terms of payment will be agreed with the customer on each operation according to the latest payments directive 15/2010 of 5 July, that sets up measures to combat late payment in commercial transactions. These periods of payment will be adjusted progressively, according to the schedule stipulated in the abovementioned directive.
8. Transport costs are not included and will be charged separately. Transport will be arranged by Maceflor unless otherwise indicated by the customer.
9. In the case of claims for damage goods during transport, will have to be done within 24 hours (as required by the transport agencies) after reception of the goods. The shipment need to match with number of packages and pallets mentioned in the packing list supplied by the transport agency.
10. Any dispute will be resolved in the courts and tribunals of Valencia, the buyer waiving the jurisdiction of his domicile.

Camino de los Huertos s/n 46210 Picanya, Valencia, España 961 590 666 Fax. 961 591 603
