CATALOGO GENERALE

Vivi il tuo Vaso[®] plastecnic

È un invito a esplorare un mondo dove stile, bellezza, qualità e sostenibilità si fondono per creare un nuovo stile di vita. Crediamo che anche la più piccola delle piante possa trasformare un ambiente, infondendo luce, vita e colore. Ogni pezzo della nostra collezione è pensato per chi cerca un design che parla la lingua della natura, rispettando ed esaltando la bellezza di fiori e piante. Per questo motivo lavoriamo ogni giorno con la convinzione che un vaso non debba solo contenere, ma anche diventare un elemento che celebra la natura, trasformandola in una vera fonte di benessere e gioia. La nostra mission "ambientare e contenere la natura per creare atmosfere", è l'espressione di questa visione.

Your pot, your life

It is an invitation to explore a world where style, beauty, quality and sustainability come together to create a new lifestyle. We believe that even the smallest plant can change an environment, giving light, life and color. Each piece in our collection has been studied for those who are looking for a design that speaks the language of nature, respecting and enhancing the beauty of flowers and plants. For this reason, we're working every day with the conviction that a pot should not only contain, but also become an element that celebrates nature, transforming it into a true source of wellness and joy. Our mission "Creating locations and containing nature to give a mood" is the meaning of this vision.

Votre pot, votre vie

C'est une invitation à explorer un monde où style, beauté, qualité et développement durable s'unissent pour créer un nouveau style de vie. Nous pensons que même la plus petite des plantes peut transformer un environnement en lui insufflant lumière, vie et couleur. Chaque pièce de notre collection est conçue pour ceux qui recherchent un design qui parle le langage de la nature, en respectant et mettant en valeur la beauté des fleurs et des plantes. C'est pour cette raison que nous travaillons chaque jour avec la conviction qu'un pot ne doit pas seulement contenir, mais aussi devenir un élément qui célèbre la nature, en la transformant dans une véritable source de bien-être et de joie. Notre mission « créer et contenir la nature pour offrir des atmosphères » c'est l'expression de cette vision.

Dein Topf, dein Leben

Es ist eine Einladung, eine Welt zu erkunden, wo Stil, Schönheit, Qualität und Nachhaltigkeit zusammenkommen, um einen neuen Lebensstil zu schaffen. Wir glauben, dass auch die kleinste Pflanz deiner Umgebung durch Licht, Leben und Farbe verändern kann. Jedes Stück unserer Kollektion ist fuer diejenigen gedacht, die ein Design suchen, das die Sprache der Natur spricht und die Schönheit von Blumen und Pflanzen respektiert und hervorhebt. Aus diesem Grund arbeiten wir jeden Tag mit der Überzeugung, dass ein Topf nicht nur enthalten, sondern auch zu einem Element werden muss, das die Natur feiert und sie in eine wahre Quelle des Wohlbefindens und der Freude verwandelt. Unsere Mission „Ein Umfeld gestalten und die Natur bewahren, um die Atmosphäre zu schaffen“ ist der Ausdruck dieser Vision.

Una storia di tradizione e qualità!

Dal 1962, i fondatori di Plastecnic hanno intravisto nel settore della floricoltura una importante opportunità, gettando le basi per un'azienda che, in oltre 60 anni, è diventata un punto di riferimento nel settore dei vasi.

Plastecnic ha saputo ripensare il vaso come elemento d'arredo, collaborando con designer e architetti di fama internazionale. Da queste collaborazioni sono nate collezioni iconiche che ancora oggi rappresentano il core-business dell'azienda.

Sempre spinta dalla ricerca e dall'innovazione, Plastecnic ha esplorato nuove tecnologie e materiali, per la produzione di vasi dalle forme, superfici e decori unici e concretizzato il suo forte impegno verso la sostenibilità inserendo la plastica riciclata nella produzione della maggior parte delle sue linee.

Plastecnic produce oggi tutti i suoi vasi a iniezione con oltre il 70% di plastica riciclata certificata, unendo l'attenzione per l'ambiente alla qualità e al design. Questo impegno si concretizza in prodotti che non solo arredano, ma rispettano e proteggono il pianeta.

A history of tradition and quality

Since 1962, the founders of Plastecnic have seen an important opportunity in the floriculture field. The result is a Company that, in over 60 years, has become a point of reference in the pot industry.

Plastecnic has been able to consider a pot as a piece of furniture, thanks to the collaboration with internationally renowned designers and architects. These partnerships have allowed the realization of iconic collections that still represent the Company's core business today.

Plastecnic mission has always been connected with research and innovation, thus the Company is always looking for new technologies and raw materials to improve the pots production with unique shapes, surfaces and decorations. Another important goal is the actualization of its strong commitment to sustainability by including recycled plastic in the production of most of the manufactured products. Plastecnic today manufactures all its injection pots with over 70% certified recycled plastic, combining attention to the environment with quality and design. This commitment is an offer of products that are not only pieces of furniture but they are respecting and protecting our planet.

Une histoire de tradition et qualité

Depuis 1962, les fondateurs de Plastecnic ont vu une opportunité importante dans le secteur de la floriculture, en posant les bases d'une entreprise qui, pendant ces derniers 60 ans, est devenue une référence dans le secteur de la poterie.

Plastecnic a su repenser le pot en tant qu'élément d'ameublement, en collaborant avec des designers et architectes de renommée internationale. Grâce à ces collaborations sont nées des collections iconiques qui représentent encore aujourd'hui le cœur de métier de l'entreprise.

Toujours animée par la recherche et l'innovation, Plastecnic a exploré de nouvelles technologies et de nouveaux matériaux pour la production de pots aux formes, surfaces et décorations uniques et a concrétisé son fort engagement en faveur de la durabilité, en insérant du plastique recyclé dans la production de la plupart de ses articles. Plastecnic produit aujourd'hui tous ses pots injectés avec plus de 70% de plastique recyclé certifié, alliant l'attention à l'environnement à la qualité et au design. Cet engagement s'exprime dans des produits qui non seulement meublent, mais respectent et protègent la planète.

Eine Geschichte von Tradition und Qualität

Seit 1962 sahen die Gründer von Plastecnic eine wichtige Chance im Blumenzucht Gebiet und legten den Grundstein für ein Unternehmen, das sich in über 60 Jahren zu einem Bezugspunkt in der Produktion der Kunststoff Töpfe entwickelt hat.

Durch die Zusammenarbeit mit internationalen renommierten Designern und Architekten ist es Plastecnic gelungen, den Topf als ein Einrichtungselement neu zu denken. Aus diesen Kooperationen entstanden originelle Kollektionen, die auch heute noch das Kerngeschäft des Unternehmens darstellen.

Stets von Forschung und Innovation angetrieben, hat Plastecnic neue Technologien und Materialien für die Herstellung von Töpfen mit einzigartigen Formen, Oberflächen und Dekorationen erforscht und die Firma hat sein starkes Engagement für Nachhaltigkeit durch den Einsatz von recyceltem Kunststoff in der Produktion der meisten Produkten seiner Linien konkretisiert. Plastecnic stellt heute alle gespritzten Töpfe zu über 70% aus zertifiziertem recyceltem Kunststoff her und verbindet dabei Umweltbewusstsein mit Qualität und Design. Dieses Engagement kommt in Produkten zum Ausdruck, die nicht nur unser Haus einrichten, sondern den Planeten respektieren und schützen.

Passione per le piante. rispetto per l'ambiente

Plastecnic abbraccia la sostenibilità come un impegno a 360 gradi, integrando tecnologie avanzate e un'esperienza consolidata nella realizzazione di vasi che uniscono basso impatto ambientale e altissima qualità.

Tutti i vasi della linea a iniezione sono realizzati con oltre il 70% di plastica riciclata certificata.

La nostra passione per le piante si traduce in strategie mirate al rispetto dell'ambiente: dalla selezione dei materiali, alla produzione, fino alla logistica, agiamo per ridurre i consumi energetici e abbattere le emissioni di CO2.

Plastecnic non si limita a creare prodotti sostenibili, ma è anche dalla parte delle persone, impegnandosi eticamente verso dipendenti e consumatori, e promuovendo attività costruttive all'interno e all'esterno dell'azienda. Con un occhio costante verso il futuro, ci impegniamo a innovare per un mondo più verde e sostenibile.

Passion for plants, respect for the environment

Plastecnic embraces sustainability as a 360° commitment, integrating advanced technologies and long experience in the production of plastic pots that combine low environmental impact and the highest quality.

All the injection pots are manufactured with over 70% certified recycled plastic.

We always focus on our passion for plants and on the goal to save the environment: from the selection of materials, to the production phase, up to logistics, we act to reduce energy consumption and CO2 emissions. Plastecnic does not only produce sustainable products, but it is also on the side of people, committing itself ethically to employees and consumers, and promoting constructive activities inside and outside the Company. With a constant eye towards the future, we are committed to innovation for a greener and more sustainable world.

Passion des plantes, respect de l'environnement

Plastecnic considère le développement durable comme un engagement à 360 degrés, intégrant des technologies avancées et une expérience consolidée dans la création de pots alliant bas impact environnemental et très haute qualité.

Tous les pots de la ligne d'injection sont fabriqués avec plus de 70% de plastique recyclé certifié.

Notre passion pour les plantes se traduit par des stratégies visant le respect de l'environnement. De la sélection des matériaux à la production, jusqu'à la logistique, nous travaillons pour réduire la consommation d'énergie et réduire les émissions de CO2. Plastecnic ne produit pas seulement des pots durables, mais se tient également aux côtés des personnes, en s'engageant de manière éthique envers les employés et les consommateurs et en promouvant des activités constructives à l'intérieur et à l'extérieur de l'entreprise. Avec un regard constant vers l'avenir, nous nous engageons à innover pour un monde plus vert et plus durable.

Liebe für Pflanzen, Respekt für die Umwelt

Plastecnic betrachtet Nachhaltigkeit als 360-Grad-Verpflichtung und integriert fortschrittliche Technologien und fundierte Erfahrung bei der Herstellung von Töpfen, die geringe Umweltbelastung und sehr hohe Qualität vereinen.

Alle Töpfe der gespritzten Linie bestehen zu über 70% aus zertifiziertem Recyclingkunststoff.

Unsere Liebe für Pflanzen spiegelt sich in Strategien wider, die auf den Schutz der Umwelt abzielen: von der Auswahl der Rohstoffe bis die Produktion und zur Logistik setzen wir uns für die Reduzierung des Energieverbrauchs und der CO2-Emissionen ein. Plastecnic stellt nicht nur nachhaltige Produkte her, sondern steht die Firma auch auf der Seite der Menschen, engagiert sich ethisch gegenüber Mitarbeitern und Kunden und fördert konstruktive Aktivitäten innerhalb und außerhalb des Unternehmens. Mit einem ständigen Blick auf die Zukunft engagieren wir uns für Innovationen für eine grünere und nachhaltigere Welt.

Vasi Sostenibili

Tutti i vasi delle linee a iniezione sono realizzati con oltre il **70% di plastica riciclata certificata**, unendo estetica e rispetto per l'ambiente. Le materie e i masterbatch sono privi di metalli pesanti. Questo impegno si concretizza anche nella nostra attenzione alla qualità, che garantisce una lunga durata del prodotto.

Sustainable pots

All pots in the injection moulded lines are made with more than 70% certified recycled plastic, combining aesthetics and respect for the environment. Raw materials and master batches are free from heavy metals. This commitment is also shown in our focus on quality, which guarantees a long product life.

Pots durables

Tous les pots des lignes de moulage par injection sont fabriqués à partir de plus de 70 % de plastique recyclé certifié, ce qui permet d'allier esthétique et respect de l'environnement. Matières premières et master batches exempts de métaux lourds. Cet engagement se reflète également dans notre souci de qualité, qui garantit une longue durée de vie aux produits.

Nachhaltige Töpfe

Alle die gespritzten Töpfe werden mit über 70 % aus zertifiziertem recyceltem Kunststoff produziert und vereinen Ästhetik und Respekt für die Umwelt. Rohstoffe und Masterbatches frei von Schwermetallen. Dieses Engagement spiegelt sich auch in unserem Augenmerk auf Qualität wider, die eine lange Lebensdauer des Produkts garantiert.

Sguardo al Futuro

Guardiamo costantemente al futuro, con l'obiettivo di **innovare e continuare a investire in impianti a bassa emissione di CO₂**, per offrire prodotti che non solo rispettino l'ambiente, ma che contribuiscano attivamente a preservarlo.

Looking to the future

We are constantly looking to the future, with the aim of always innovating and continue to invest in low CO₂ emissions machineries in order to offer products that not only respect the environment, but actively contribute to its preservation.

Regard vers l'avenir

Nous regardons constamment vers l'avenir, dans le but de toujours innover et continuer à investir dans des installations à faible émission de CO₂ pour proposer des produits qui non seulement respectent l'environnement, mais qui contribuent activement à sa préservation.

Blick in die Zukunft

Wir blicken ständig in die Zukunft, mit dem Ziel, innovativ zu sein und weiterhin in CO₂ Anlagen zu investieren, um Produkte anzubieten, die nicht nur die Umwelt respektieren, sondern auch aktiv zu ihrer Erhaltung beitragen.

Innovazione e Rispetto Ambientale

Dalla selezione dei materiali fino alla logistica, **adottiamo strategie per ridurre i consumi energetici** e abbattere le emissioni di CO₂. Raccogliamo e mandiamo al riciclo i materiali di scarto. Utilizziamo energia da fonti rinnovabili.

Innovation and respect for the environment

From material selection to logistics, we adopt strategies to reduce energy consumption and cut CO₂ emissions. We collect and send waste materials for recycling. We use energy from renewable sources.

Innovation et respect de l'environnement

De la sélection des matériaux à la logistique, nous adoptons des stratégies visant à réduire la consommation d'énergie et les émissions de CO₂. Nous collectons et envoyons les déchets au recyclage. Nous utilisons de l'énergie provenant de sources renouvelables.

Innovation und Umweltschutz

Von der Materialauswahl bis zur Logistik verfolgen wir Strategien zur Reduzierung des Energieverbrauchs und der CO₂ Emissionen. Wir sammeln Abfallstoffe und führen sie dem Recycling zu. Wir nutzen Energie aus erneuerbaren Quellen.

Responsabilità Sociale

Ci impegniamo ogni giorno a **promuovere il benessere delle persone**, con un approccio etico nei confronti di dipendenti, fornitori e consumatori poiché sono il nostro patrimonio principale. La nostra missione è costruire un futuro più verde e inclusivo attraverso attività costruttive, sia all'interno dell'azienda che verso il pubblico.

Social responsibility

We are committed every day to promote people wellness with an ethical approach to employees, suppliers and consumers who are our main heritage. Our mission is to build a greener and better future through constructive activities, both within the company and towards the public.

Responsabilité sociale

Nous nous engageons à promouvoir le bien-être des personnes chaque jour, en adoptant une approche éthique à l'égard des employés, des fournisseurs et des consommateurs qui sont notre principal atout. Notre mission est de construire un avenir plus vert et plus solidaire grâce à des activités constructives, tant au sein de l'entreprise qu'à l'égard du public.

Soziale Verantwortung

Wir engagieren uns jeden Tag für das Wohlergehen der Menschen und verfolgen dabei einen ethischen Ansatz gegenüber Mitarbeitern, Lieferanten und Verbrauchern, die unser wichtigstes Erbe sind. Unser Ziel ist es, durch konstruktive Aktivitäten sowohl innerhalb des Unternehmens als auch gegenüber der Öffentlichkeit eine grünere und integrativere Zukunft zu schaffen.

Ogni stile ha il suo vaso

In un mondo dove l'espressione personale si intreccia con una crescente consapevolezza ambientale, la scelta degli elementi che abbelliscono i nostri spazi diventa una dichiarazione di impegno verso il pianeta e un riflesso della nostra identità. Che tu sia affascinato dall'eleganza essenziale del minimalismo, dal calore accogliente dello stile rustico, dall'energia dei colori vivaci, dalla sofisticata raffinatezza o dall'audace mix dell'eclettismo, c'è sempre un modo per esprimere chi sei attraverso il verde.

I vasi Plastecnic non sono semplici contenitori per piante; sono espressioni di stili di vita, valori e personalità. Il modo in cui scegliamo di arredare i nostri spazi, interni ed esterni, racconta chi siamo e quali sono le nostre aspirazioni. Ogni dettaglio e ogni scelta diventano un'estensione della nostra identità e dei nostri ideali, riflettendo il nostro stile unico e personale.

E se è vero che ogni persona ha il suo stile... allora ogni stile ha un suo vaso!

We're living in a world where self-expression is linking together with a growing awareness of environment. The choice of elements that make it cleaner and greener becomes a statement of commitment to the planet and a reflection of our identity. Whether you're fascinated by the basic elegance of minimalism, by the cozy warmth of a rustic style, by the energy of bright colors, by a sophisticated elegance or by the bold mix of eclecticism, there's always a way to express your personality thanks to our green world.

Plastecnic pots are not just plant containers; they are expressions of lifestyles, values and personalities. The way we choose to furnish our spaces, indoors and outdoors, tells us who we are and reflects our aspirations. Every detail and every choice become an extension of our identity and ideals, showing our unique and personal style.

And if it is true that each person has his or her own style... then every style has its own pot!

MoodLine wurde entworfen, um Räume mit Stil und Originalität zu personalisieren. Mit einer Linie, die verschiedene Sortimente umfasst: **SWINGmood** mit einer raffinierten Oberfläche voller leuchtender Farben, **TATTOO**, **NATURE** und **LEAF** mit ihren drei verschiedenen Texturen mit einer ganz besonderen Stimmung und **MYmood**, eine zeitgemäße Neuinterpretation der klassischen Gefäße, um Räume auf innovative Weise einzurichten.

Die MoodLine Töpfe zeichnen sich durch ihre innovativen Formen aus, die von den klassischsten bis zu den originellsten Modellen reichen, und durch die Vielfalt an Texturen und Farbtönen, von neutralen und eleganten Farben bis hin zu lebendigen und faszinierenden Farben. Sie passen sich perfekt sowohl an Innen- als auch an Außenumgebungen an. MoodLine kann Ihr Zuhause, Balkon, Terrassen und Gärten in eine reine Stiloasen durch grüne Ecken verwandeln. MoodLine wird aus über 70 % recyceltem Kunststoff hergestellt und stellt eine nachhaltige Wahl dar, die Ästhetik und Respekt für die Umwelt vereint. Diese Kollektion inspiriert zu grenzenloser Kreativität und ermöglicht es Ihnen, jeder Umgebung eine persönliche und unverwechselbare Note zu verleihen.

Consigli di utilizzo

UTILIZZO COME VASO

You can use them as a pot. / Utilisation des produits comme un pot. / Verwendbar als Topf.

Forare il vaso nei punti predisposti sulle torrette troppo pieno, per mantenere un minimo di riserva d'acqua (solo per uso esterno).

Drill the pot in the points as shown to keep the correct level of water supply, for external use only.

Percez le pot dans les points comme indiqué pour créer une petite réserve d'eau (uniquement pour une utilisation à l'extérieur).

Bohren Sie im Boden die ange-deuteten Punkte aus (nur für draußen).

Adagiare sul fondo materiale drenante (tipo argilla espansa).

Place draining material: expanded clay, gravels, etc.. on the bottom of the pot.

Posez du matériau drainant sur le fond du pot (argile expansée).

Legen Sie entwässerndes Material auf den Boden des Topfes (Blähton).

Posizionare uno strato di tessuto non tessuto.

Place a layer of non-woven material.

Placer une couche du tissu-non-tissé.

Legen Sie eine Schicht Vlies darauf.

Procedere riempiendo con il terriccio adeguato e la pianta.

Then fill with compost and put the plant.

Ensuite, remplissez avec du compost et mettez la plante.

Füllen Sie mit Erde und dann mit der Pflanz.

OPPURE
or/ou/ode

Forare il fondo per fare la riserva nel sottovaso.

Drill the bottom to allow a water reserve in the saucer.

Percez le fond pour créer la réserve d'eau dans la soucoupe.

Bohren Sie im Boden, um Wasserspeicher in dem passenden Untersetzer zu erlauben.

UTILIZZO DEI PRODOTTI COME CASPÒ

Use them as a cover pot.

Utilisation des produits comme cache-pots.

Verwendbar als Ubertopf

Porre un altro vaso all'interno, senza forare.

Just enter the plant in container within the pot.

Placez la plante dans un conteneur à l'intérieur du pot.

Stecken Sie die Pflanze in Container in den Topf.

TERRÆ

Eleganza naturale

Una linea che celebra la bellezza dei materiali e colori ispirati alla natura.

Terræ è una collezione di vasi che offre una vasta gamma di forme e dimensioni e che privilegia texture materiche e colori naturali, come terracotta, bianco pietra, beige scuro e grigio. Queste tonalità sono pensate per integrarsi armoniosamente con qualsiasi stile e arredo. La linea Terræ che include vasi, basket, ciotole, cassette, fioriere e sottovasi, con opzioni che vanno dalle più piccole alle più capienti, è una collezione che si distingue per il suo "family feeling": ogni pezzo è pensato per integrarsi armoniosamente con gli altri, creando un insieme coeso e completo. Ideali per l'uso esterno, i vasi Terræ sono molto apprezzati anche per interni, grazie alle soluzioni di sottovaso e sottocassetta anche cliccati, che garantiscono praticità e versatilità. Realizzata con oltre il 70% di plastica riciclata rappresenta una scelta sostenibile che unisce estetica e funzionalità.

NATURAL ELEGANCE

A line that celebrates the beauty of materials and colors inspired by nature.

Terræ is a collection of pots that offers a rich range of shapes and sizes and which favors material textures and natural colors, such as terracotta, stone white and grey. These shades are designed to blend harmoniously with any style and decor. The Terræ line includes pots, baskets, bowls, balcony boxes, planters and saucers, with options ranging from the smallest to the most capacious sizes, making it one of the most appreciated collections for its completeness. Ideal for outdoor use, Terræ products are also highly appreciated for indoors, thanks to clicked saucer solutions which guarantee practicality and versatility. The result is a coordinated collection with many articles.

ÉLÉGANCE NATURELLE

Une ligne qui célèbre la beauté des matières et des couleurs inspirées de la nature.

Terræ est une collection de pots qui offre une vaste gamme de formes et de tailles et qui privilégie les textures de matières et les couleurs naturelles, comme la terre cuite, le blanc pierre et le gris. Ces nuances sont conçues pour se fondre harmonieusement avec n'importe quel style et décor. La ligne Terræ comprend des pots, bacs à suspensions, des coupes, des balconnières, des jardinières et des soucoupes, avec des tailles différentes; c'est une de nos collections les plus appréciées pour sa gamme très riche. Idéals pour une utilisation en extérieur, les pots Terræ sont également très appréciés pour l'intérieur, grâce aux solutions de soucoupes clipsés qui garantissent praticité et flexibilité. Le résultat est une ligne complète et coordonnée.

NATÜRLICHE ELEGANZ

Eine Linie, die die Schönheit von Materialien und Farben zelebriert, die von der Natur inspiriert sind.

Terræ ist eine Topf Kollektion, die eine große Auswahl an Formen und Größen bietet und Materialtexturen und natürliche Farben wie Terrakotta, Steinweiß und Grau bevorzugt. Diese Farbtöne sind so konzipiert, dass sie sich harmonisch in jeden Stil und jedes Dekor einfügen. Die Terræ Linie umfasst Töpfe, Ampeln, Schalen, Balkonkästen, Pflanzgefäße und Untersetzter mit Optionen, die von den größten bis zu den geräumigsten reichen. Terræ ist aufgrund ihrer Vollständigkeit eine der am meisten geschätzten Kollektionen von Plastecnic. Terræ Produkte eignen sich für den Außenbereich ideal und werden dank der integrierten Untersetzter, die praktisch und vielseitig sind, auch für den Innenbereich sehr geschätzt. Die Terræ-Linie ist eine einheitliche und komplette Kollektion.

UNICA

Il bello della semplicità

Una collezione che unisce essenzialità e praticità.

La linea Unica è la soluzione passe-partout per ogni spazio. Composta da un assortimento selezionato di pochi pezzi essenziali – dal vaso alla cassetta con e senza riserva d'acqua dalla ciotola alle fioriere. L'ampiezza di dimensioni è pensata per soddisfare ogni esigenza. I colori facilmente abbinabili permettono a Unica di adattarsi con eleganza a qualsiasi ambiente. Con uno stile essenziale, materiali resistenti e dettagli progettati per il benessere delle piante, la linea Unica si fa notare per la sua semplicità e versatilità. Realizzata con oltre il 70% di plastica riciclata, Unica è una scelta pratica e sostenibile.

SIMPLE AND BEAUTIFUL

A collection that combines essentiality and practicality.

The Unica line is the passe-partout solution for every space. It is a collection with few items with basic shapes: from the pot to the balcony box with and without water supply, from the bowl to the big planter, this collection stands out for its variety of sizes, designed to satisfy every need. The easily matchable colors allow Unica to be placed everywhere at home. With an essential style, resistant materials and details designed for the wellness of plants, the Unica line is the ideal pot for its simplicity and versatility. Made of over 70% recycled plastic, Unica is a practical and sustainable choice.

UNE SIMPLICITÉ POLYVALENTE

Une collection qui allie essentialité et praticité.

TRADIZIONALE

Icona di stile Italiano

Un classico che unisce tradizione e funzionalità.

La linea Tradizionale è un classico evergreen di Plastecnic che incarna lo stile italiano per balconi, terrazzi e giardini. Caratterizzata dall'iconico colore terracotta, affiancato da tonalità come il grigio e il verde, questa collezione offre una vasta gamma di forme, dimensioni e soluzioni pensate per adattarsi a diverse esigenze. I vasi della linea Tradizionale oltre che a terra possono essere facilmente posizionati su ringhiere o a muro, con sistemi sicuri e pratici. Il sottovaso incorporato di alcuni modelli rende l'uso ancora più agevole. Con tanti vasi capienti, la linea Tradizionale è progettata per garantire il benessere e la crescita ottimale delle piante. Realizzata con oltre il 70% di plastica riciclata, rappresenta una scelta sostenibile che unisce la tradizione estetica italiana con la praticità e l'attenzione all'ambiente.

ITALIAN STYLE ICON

A classic collection that combines tradition and functionality.

The Traditional line is an evergreen classic collection by Plastecnic that represents the Italian style for balconies, terraces and gardens. Characterized by the iconic terracotta color together with gray and green, this collection offers a wide range of shapes, sizes and solutions, designed to satisfy different needs. The pots of the Traditional line can be easily placed on railings or walls, as well as on the ground, with safe and practical systems. The clicked saucer available in some models make their use even easier. Thanks to many large size pots, the Traditional line is designed to ensure the wellness and optimal growth of plants. Made of over 70% recycled plastic, it represents a sustainable choice that combines Italian aesthetic tradition with practicality and attention to the environment.

ICÔNE DE STYLE ITALIEN

Une collection classique qui allie tradition et fonctionnalité.

La ligne Tradizionale est une collection classique indémodable de Plastecnic qui représente le style italien pour les balcons, terrasses et jardins. Caractérisée par la couleur emblématique de la terre cuite et de nuances comme le gris et le vert, cette collection offre une large gamme de formes, de tailles et de solutions, conçues pour s'adapter aux différents solutions. Les pots de la ligne Tradizionale peuvent être facilement placés sur des balustrades ou des murs, ainsi qu'au sol, avec des systèmes sûrs et pratiques. La soucoupe clipsée de certains modèles rend l'utilisation encore plus facile. Dotée de nombreux grands pots, la gamme Tradizionale est conçue pour assurer le bien-être et la croissance optimale des plantes. Fabriquée avec plus de 70 % de plastique recyclé, il représente un choix durable qui allie la tradition esthétique italienne à la praticité et à l'attention à l'environnement.

ITALIENISCHE STILIKONE

Eine klassische Kollektion, die Tradition und Funktionalität vereint.

Die Traditional Kollektion ist ein zeitlose Klassiker von Plastecnic, der den italienischen Stil für Balkons, Terrassen und Gärten darstellt. Diese Kollektion zeichnet sich durch die ikonische Farbe Terrakotta sowie Grau und Grüntöne aus und bietet eine breite Offerte an Formen, Größen und Lösungen, die sich an unterschiedliche Bedürfnisse anpassen lassen. Die Töpfe der Traditional-Linie können mit sicheren und praktischen Systemen problemlos auf Geländern oder Wänden sowie auf dem Boden platziert werden. Die Click Untersetzer einiger Modelle erleichtern die Nutzung in Ihrem Zuhause. Mit vielen Gefäßen mit großen Durchmessern ist die Traditional Linie darauf ausgelegt, das Wohlbefinden und ein optimales Wachstum der Pflanzen zu gewährleisten. Diese Kollektion wird aus über 70 % recyceltem Kunststoff hergestellt und stellt eine nachhaltige Wahl dar, die italienische ästhetische Tradition mit Praktikabilität und Aufmerksamkeit für die Umwelt verbindet.

DECOR

Raffinatezza senza tempo

La linea Decor rappresenta un equilibrio perfetto tra design contemporaneo ed eleganza classica.

Caratterizzata da modanature, superfici a rilievo, forme arrotondate e morbide accanto a linee più squadrate e pulite, Decor offre una modularità che permette di affiancare tra loro i vasi, anche con i sottovasi, per creare allestimenti originali e sofisticati, sia in spazi esterni come terrazzi, giardini e bordi piscina, sia in ambienti interni. Con uno stile discreto e ricercato, Decor si distingue per le sue finiture e colori selezionati con cura, ideali per essere combinati e abbinati in modo armonioso. La modularità della linea consente di disporre i pezzi in composizioni uniche, che possono essere adattate e modificate nel tempo, rendendo Decor una scelta versatile e dinamica. Le texture richiamano l'imperfezione naturale di materiali come terracotta, ardesia e graniglia, aggiungendo un tocco autentico e raffinato a qualsiasi ambiente. Decor è la scelta perfetta per chi desidera unire modernità e tradizione, valorizzando ogni spazio con stile.

TIMELESS ELEGANCE

A mix of tradition and contemporaneity for unique and elegant locations.

The Decor line represents a perfect balance between contemporary design and classic elegance. Characterized by moldings, relief surfaces, rounded and soft shapes, together with more squared and cleaner planters, Decor is the right solution to create original and refined arrangements, both in external spaces such as terraces, gardens and pool areas, and in indoors. Thanks to its discreet and refined style, Decor stands out for its carefully selected textures and colors, ideal for being combined harmoniously. The textures reproduce the natural imperfection of natural materials such as clay, slate and grit, adding an authentic and refined touch to any environment. Decor is the ideal choice for those looking for a mix of modernity and tradition, capable of enhancing every space with class and style.

UNE SOPHISTICATION INTEMPORELLE

Un mélange de tradition et de contemporanéité pour des endroits uniques et raffinés.

La ligne Decor représente un équilibre parfait entre design contemporain et élégance classique. Caractérisé par des moulures, des surfaces en relief, des formes arrondies et douces, ainsi que des formes carrées et plus épurées, Decor se prête à la création d'arrangements originaux et sophistiqués, aussi bien dans les espaces extérieurs tels que les terrasses, les jardins et les bords de piscine, que dans votre intérieur. Avec un style discret et raffiné, Decor se distingue par ses finitions et ses couleurs sélectionnées, idéales pour se combiner harmonieusement. Les textures reproduisent l'imperfection naturelle des matériaux originels tels que la terre cuite, l'ardoise et le gravier, ajoutant une touche authentique et raffinée à n'importe quel endroit. Decor est le choix idéal pour ceux qui recherchent un mélange de modernité et de tradition, capable de valoriser chaque espace avec classe et style.

ZEITLOSE ELEGANZ

Eine Mischung aus Tradition und Zeitgenossenschaft für einzigartige und raffinierte Umgebungen.

Die Decor Linie stellt eine perfekte Balance zwischen zeitgenössischem Design und klassischer Eleganz dar. Dekor zeichnet sich durch Leisten, Reliefoberflächen, abgerundete und weiche Formen sowie eher eckige und klarere Formen aus und eignet sich für die Schaffung origineller und raffinierter Arrangements sowohl in Außenräumen wie Terrassen, Gärten und Poolrändern als auch in Innenräumen. Mit einem diskreten und raffinierten Stil zeichnet sich Dekor durch sorgfältig ausgewählte Oberflächen und Farben aus, die sich ideal für eine harmonische Kombination eignen. Die Texturen reproduzieren die natürliche Unvollkommenheit natürlicher Materialien wie Terrakotta, Schiefer und Stein und verleihen jeder Umgebung eine authentische und raffinierte Note. Dekor ist die ideale Wahl für diejenigen, die eine Mischung aus Moderne und Tradition suchen und jeden Raum mit Klasse und Stil aufwerten können.

NATURALIA

Design naturale

Una collezione ispirata alla natura, per ambienti autentici e armoniosi.

Naturalia è una collezione versatile, pensata per arricchire sia ambienti interni che esterni con uno stile unico. Concepita dal designer Marco Maggioni, questa linea trae ispirazione dalle forme organiche e sinuose della natura, che si riflettono nelle linee fluide disegnate sulla superficie. I colori sono caratterizzati da toni neutri e non uniformi, che conferiscono a questa linea un aspetto realistico e naturale perfetto per chi ama un design discreto ma di grande impatto. Con una varietà di forme e dimensioni, Naturalia permette di creare scenografie uniche e suggestive, adattabili a qualsiasi spazio. Ogni pezzo è progettato per unire bellezza e praticità, grazie anche al sottovaso dedicato che offre una riserva d'acqua e si integra perfettamente al vaso. Naturalia valorizza ogni spazio ispirandosi all'equilibrio e alla serenità del mondo naturale.

NATURAL DESIGN

A collection inspired by nature, for authentic and harmonious environments.

Naturalia is a versatile line, ideal for enriching both external and internal locations. Designed by Marco Maggioni and inspired by nature, this collection is original thanks to the decorative lines that design its surface, creating a unique and organic visual effect. The colors, with neutral and shades of different tonality are very natural, while the soft shapes and the material texture add a refined and authentic touch. The variety of shapes and sizes of the Naturalia line allows you to create scenography compositions, capable of enhancing any space, internal or external. This collection is designed for those who want to combine design and functionality, inspired by the beauty and harmony of the natural world.

CONCEPTION NATURELLE

Une collection inspirée par la nature, pour des espaces authentiques et harmonieux.

Naturalia est une ligne polyvalente, idéale pour enrichir environnements extérieurs et intérieurs. Conçue par le designer Marco Maggioni et inspirée de la nature, cette collection se distingue par les lignes décoratives qui dessinent la surface, créant un effet visuel unique et organique. Les couleurs, aux tons neutres et non homogènes, donnent un aspect naturel, tandis que les formes douces et la texture de la matière ajoutent une touche raffinée et authentique. La variété de formes et de tailles de la ligne Naturalia permet de créer des compositions scénographiques, capables de valoriser n'importe quel espace, intérieur ou extérieur. Cette collection est conçue pour ceux qui souhaitent allier design et fonctionnalité, inspirés par la beauté et l'harmonie du monde naturel.

NATÜRLICHES DESIGN

Eine von der Natur inspirierte Kollektion für authentische und harmonische Umgebungen.

Naturalia ist eine vielseitige Linie, die sich ideal zur Bereicherung sowohl fuer Außen als auch fuer Innen eignet. Diese Linie wurde vom Designer Marco Maggioni entworfen und ist eine von der Natur inspirierte Kollektion, die sich durch Linien auszeichnet, die die Oberfläche gestalten und einen einzigartigen und organischen visuellen Effekt erzeugen. Die Farben mit neutralen Tönen und Nuancen sorgen für ein natürliches Erscheinungsbild und die runden Formen und die Materialtextur bieten eine raffinierte und authentische Note an. Die Vielfalt an Formen und Größen der Naturalia-Linie ermöglicht elegante Einrichtungen zu schaffen, die jeden Raum, ob Innen oder Außen, aufwerten können. Diese Kollektion ist für diejenigen gedacht, die Design und Funktionalität vereinen möchten, von der Schönheit und Harmonie der Natur inspiriert.

OLTREVASO

Lo stile modulabile più contemporaneo

Il design del vaso per creare soluzioni d'arredo uniche.

Oltrevaso è la linea che reinterpreta il concetto di vaso, trasformandolo in un vero e proprio elemento d'arredo. Questa collezione offre vasi dalle forme organiche e morbide, affiancate a linee più squadrate, ideali per creare spazi originali e distintivi. Con un forte focus sulla modularità, i vasi della linea Oltrevaso possono essere utilizzati sia come vasi che come caspò e sono caratterizzati da una doppia parete. Un design essenziale e geometrico, con tonalità come il grigio e il corten che si affiancano al bianco e nero, perfette per chi ricerca uno stile più industriale e contemporaneo. Oltrevaso è la scelta ideale per chi desidera combinare estetica e funzionalità, dando vita ad ambienti unici e dal forte impatto visivo.

THE MOST CONTEMPORARY MODULAR STYLE

The unique pot design to create original furnishing solutions.

Oltrevaso is the line that gives a new concept to the pot, transforming it into a real piece of furniture. This collection offers pots with harmonious and soft shapes together with squared planters, ideal for creating original and exclusive spaces. With a strong focus on modularity, the Oltrevaso products can be used both as pot and as cover pots. All of them have double wall. A modern and geometric design and colors such as gray and corten are perfect for those looking for a more industrial and contemporary style. Oltrevaso is the ideal choice for those who want to combine aesthetics and functionality, creating unique environments with a strong visual impact.

LE STYLE MODULAIRE LE PLUS CONTEMPORAIN

Le design du pot pour créer des solutions de décoration végétale uniques.

Oltrevaso est la ligne qui réinterprète le concept du pot, en le transformant dans un élément originel d'ameublement. Cette collection propose des pots aux formes rondes et douces, combinées à des lignes plus carrées, idéales pour créer des espaces originaux et distinctifs. En mettant l'accent sur la modularité, les pots de la ligne Oltrevaso peuvent être utilisés aussi bien comme pots que comme cache-pots. Ils sont tous fabriqués avec double paroi. Un design géométrique et essentiel aux nuances comme le gris et le corten, parfaites pour ceux qui recherchent un style plus industriel et contemporain. Oltrevaso est le choix idéal pour ceux qui souhaitent allier esthétique et fonctionnalité, en créant des environnements uniques avec un fort impact visuel.

DER MODERNSTE MODULBAUWEISE STIL

Das Design dieser Gefäße ermöglicht einzigartige Einrichtungslösungen.

Oltrevaso ist die Kollektion, die das Konzept der Töpfen neu interpretiert und sie in ein echtes Einrichtungselement verwandelt. Diese Kollektion bietet Artikeln mit organischen und weichen Formen sowie eher quadratische Linien, die sich ideal für die Schaffung origineller und unverwechselbarer Räume eignen. Mit einem starken Fokus auf Modularität können diese Gefäße der Oltrevaso-Linie sowohl als Töpfe als auch als Übertöpfe verwendet werden. Alle diese Töpfe sind doppelwandig. Ein schlichtes und geometrisches Design bis hin zu Farbtönen wie Grau und Corten, perfekt für diejenigen, die einen eher industriellen und zeitgenössischen Stil suchen. Oltrevaso ist die ideale Wahl für alle, die Ästhetik und Funktionalität vereinen und einzigartige Umgebungen mit starker visueller Wirkung schaffen möchten.

Consigli di utilizzo

UTILIZZO COME VASO

You can use them as a pot. / Utilisation des produits comme un pot. / Verwendbar als Topf.

1

Forare il vaso nei punti predisposti per mantenere un minimo di riserva d'acqua (solo per uso esterno)

Drill the bottom in the points as shown to keep the correct level of water supply. (for external use only).

Percez le fond du pot dans les points comme indiqué (uniquement pour une utilisation à l'extérieur).

Bohren Sie im Boden die angedeuteten Punkte aus (nur für draußen).

2

Adagiare sul fondo materiale drenante (tipo argilla espansa)

Place draining material: expanded clay, gravels, etc. on the bottom of the pot.

Posez du matériau drainant sur le fond du pot (argile expansée).

Legen Sie entwässerndes Material auf den Boden des Topfes (Blähton).

3

Posizionare uno strato di tessuto non tessuto

Place a layer of non-woven material.

Placer une couche du tissu-non-tissé.

Legen Sie eine Schicht Vlies darauf.

4

Procedere riempiendo con il terriccio adeguato e la pianta

Then fill with compost and put the plant.

Ensuite, remplissez avec du compost et mettez la plante.

Füllen Sie mit Erde und dann mit der Pflanz.

UTILIZZO DEI PRODOTTI COME CASPÒ

Use them as a cover pot

Verwendbar als Ubertopf

Utilisation des produits comme cache-pots

Porre un altro vaso all'interno, senza forare ne mettere la retina. Innaffiare secondo necessità.

Just enter the plant in container within the pot. The pot itself will work as a saucer. Sprinkle the compost as needed, avoiding excessive stagnation.

Placez la plante dans un conteneur à l'intérieur du pot. Le pot va fonctionner comme une soucoupe. Ne percez pas et ne placez pas le fond de la grille secondaire. Saupoudrer le compost selon les besoins, en évitant la stagnation excessive.

Stecken Sie die Pflanze in Container in den Topf. Den Topf nicht anbohren und keinen Gitterboden benutzen. Gießen Sie die Erde im Notfall.

Vaso FIT e FID

DESIGN NENDO

Fit è un vaso reversibile, che può essere utilizzato anche capovolto, perché è pensato per poter contenere una pianta da entrambi le parti. Il suo profilo è disegnato in modo tale che, accostando i vasi in modo alternato sotto-sopra in composizioni lineari o curve, combaci perfettamente. Da qui il nome "Fit".

Fit is a planter with a reversible top and bottom that can be turned upside down to match the plants it holds. Whether arrayed in a straight line or a curve, the individual planters "Fit" together perfectly, giving the planter its name. That's why we call it "Fit".

Vaso MOD'O

DESIGN

Daniela Grandi
& Davide Negri

Oltre la funzionalità,
oltre la geometria,
oltre l'immaginazione.
Mod'O va oltre il vaso!

È la geometria nelle sue forme rigide
che si rompe con una forma organica
e va oltre il piano. Mod'O vive di una sua
dinamica, perché pensiamo che l'azione
di progettare continui con l'utilizzo del
prodotto e delle composizioni nelle loro
espressioni differenti.

Beyond its functionality, geometry and
imagination.... Mod'O goes beyond the
idea of a pot! Its own geometric hard
shapes break into curved space and
go further. Mod'O lives a dynamical
atmosphere of its own.

CLASSIC

Tradizione e praticità

La linea che combina lo stile classico con la funzionalità moderna.

La linea Classic, come suggerisce il nome, si ispira all'estetica della tradizione più classica, con vasi decorati da motivi a festoni e bordi sagomati. Questi vasi rappresentano un'alternativa pratica e funzionale alla terracotta, unendo stabilità e durabilità. Grazie alla loro capienza, sono ideali per ospitare piccoli alberi da frutto, arbusti e piante rampicanti, offrendo resistenza e versatilità. I tre colori – terracotta, grigio anticato e avana – rendono i vasi della linea Classic la scelta ideale per chi desidera coniugare lo stile tradizionale con la praticità, valorizzando giardini, terrazzi e cortili con un tocco di eleganza senza tempo.

TRADITION AND PRACTICALITY

The line that combines classic style with modern functionality.

The Classic line, as the name is suggesting, has been inspired by the aesthetics of the most classic tradition with pots decoration with festoon motifs and rounded rims. These pots are a practical and functional alternative to clay pots, combining ease of handling and durability. Thanks to their capacity, they are ideal for growing small fruit trees, shrubs and climbing plants, offering resistance and lightness in the same time. The three colors are terracotta, antique gray and havana and they make the pots of this Classic line the ideal choice for those who want to combine traditional style with lightness, decorating gardens, terraces and courtyards with a touch of timeless elegance.

TRADITION ET PRATICITÉ

La ligne qui allie style classique et fonctionnalité moderne.

La ligne Classic, comme son nom l'indique, s'inspire de l'esthétique de la tradition la plus classique, avec des vases pots de motifs festonnés et de bords façonnés. Ces pots représentent une alternative pratique et fonctionnelle à la terre cuite, alliant facilité de manipulation et durabilité. Grâce à leur capacité, ils sont idéaux pour accueillir de petits arbres fruitiers, arbustes et plantes grimpantes, offrant légèreté et résistance. Les trois couleurs – terre cuite, gris antique et Havane – font des pots de la ligne Classic le choix idéal pour ceux qui souhaitent allier style traditionnel et fonctionnalité, en embellissant les jardins, terrasses et cours avec une touche d'élégance intemporelle.

TRADITION UND PRAKTIKABILITÄT

Die Linie, die klassischen Stil mit moderner Funktionalität verbindet.

Die Classic Kollektion ist, wie der Name schon sagt, von der Ästhetik der klassischsten Tradition inspiriert, mit Gefäßen, die mit antiken Girlanden oder Dekorationen verziert sind. Diese Gefäße stellen eine praktische und funktionale Alternative zu Terrakotta dar und vereinen einfache Handhabung und lange Dauer. Dank ihrer großen Kapazität eignen sie sich ideal für die Pflanzung von Obstbäumen, Sträuchern und Kletterpflanzen und bieten Leichtigkeit und Widerstandsfähigkeit. Die drei Farben – Terrakotta, Antikgrau und Havanna – machen die Töpfe der Classic-Linie zur idealen Wahl für alle, die traditionellen Stil mit Charme verbinden und Gärten, Terrassen und Innenhöfe einen Hauch zeitloser Eleganz verleihen möchten.

XPot®

XPot: la rivoluzione per i florovivaisti

XPot® è il nuovo vaso Plastecnic progettato per farvi risparmiare: ha forma quadrata ad angoli arrotondati e bordo ridotto al minimo per ottimizzare lo spazio sul carrello. Facilita la coltivazione: le costolature favoriscono la corretta radicazione dall'alto verso il basso. Il fondo è altamente drenante, mentre altezza e conicità lo rendono adatto alla coltivazione di tutte le piante. Ha un design innovativo, studiato appositamente per il vivaismo professionale. In particolare piante da frutto, olivi, agrumi, rose, conifere e alberature.

XPOT®: THE REVOLUTIONARY NEW HORTICULTURAL PRODUCT

Plastecnic has designed and patented the new money saving Xpot®: it has a square shape and rounded corners with minimum rims to optimize the trolley space. Xpots improves the cultivation: the inner vertical plastic parts allow the roots to grow better and to remain straight. Its height, conical shape and high-drainage holes make Xpot® suitable to cultivate all types of plants. The Xpot® innovative design has been especially developed for the professional horticulturalist. They are perfect for fruit-trees, olives, citrus, roses, conifers, and all types of trees in general.

XPOT®: LA RÉVOLUTION DANS L'HORTICULTURE

Xpot® est le nouveau pot Plastecnic breveté pour économiser les coûts: il a une forme carrée aux angles arrondis et un bord minimalisé pour optimiser la place sur les chariots danois. Il aide la culture des plantes: les nervures verticales aident les racines à se développer de haut en bas. Le fond est très drainant et sa hauteur et sa conicité le rendent idéal pour la culture de toutes les plantes. Il a un design innovant, c'est un conteneur révolutionnaire dans l'horticulture professionnelle et en particulier, pour les plantes à fruit, les oliviers, les agrumes, les roses, les conifères et les arbustes.

XPOT®: DIE REVOLUTION FÜR DIE ANZUCHT

Xpot® ist der neue Plastecnic Container, der die folgenden Spareffekte anbietet: er ist quadratisch mit abgerundeten Ecken und einem sehr dünnen Rand, um Platz auf dänischen Wägen zu schaffen. Xpot® macht die Pflanzung einfacher: seine Seitenrippen aus Kunststoff fördern eine optimale vertikale Wurzelentwicklung. Das neuartige Design ermöglicht eine gute Drainage. Durch die Höhe und die konische Form ist er für die Anzucht vieler Pflanzen geeignet. Xpot wurde speziell für die professionelle Pflanzenzucht entwickelt: Fruchtpflanzen, Olivenbäume, Agrumen, Rosen, Konifere.
